Mobile Hospital

Special designed for remote area and disaster support

- TRUMP Mobile Hospital is the highly flexible and complex medical care system based on modular structural components. Intended for quick and safe use wherever basic clinical care is not guaranteed.
- Detailed configuration of the equipment as well as required. Own infrastructure are planned depending on use and task.
- The standardized container, shelter and tent are seaworthy, airworthy, road transportation by truck, trailer etc.
- All systems are fully air-conditioned and can be delivered with their own energy supply and infrastructure.
- Such mobile hospital is designed specially for **both of the purpose of remote area and disaster support**. For the purpose of medical service in remote area, the medical centre can take all of the medical modular or part of the medical modular against his medical purpose. For the purpose of disaster support, the medical centre can take emergency treatment shelter and other medical modulators needed to form a disaster support mobile hospital against the disaster situation and special purpose.

- It is more flexible to form a closed mobile hospital system against the local environment and meet your special request maximally.
- This mobile hospital is completed by function containers for power supply, laundry, as well as kitchen, sanitary and service containers for medicals, warehouse, water supply, etc.
- It is consist of the following modular:
 - Operation Shelter
 - ICU Shelter
 - Emergency treatment Shelter
 - X-ray shelter
 - Sterilization shelter
 - Laboratory shelter
 - Dental shelter
 - Outpatient clinic shelter
 - Pharmacy shelter
 - Maternity station shelter
 - Ward tent with bedding set
 - Power shelter
 - Water supply and medical water treatment
 - Kitchen shelter
 - W.C.-shower(Male and Female).

The Mobile hospitals can be specially designed and constructed against its' special purpose and local environment, make it fully suitable for client's request., for more details, kindly get in touch with us!
